Dear Louie and Brian,

Where do I begin...

Saying thank you is not enough for the excellent job you did in moving me. I was not expecting to have to move and you made the entire situation seem easy and fun!

From the initial contact you put me at ease about the move and I was so happy to know that I had experienced and caring movers taking care of me. You handled all of my crazy questions with ease and on the day of the move you arrived and did more than I expected. Not only did you pack up all of my belongings, but you did it with care and concern as if they were your own. I don't know how you did all of this with smiles on your faces but I applaud you both! Whenever I hear that someone is moving I always tell them to call Ace Movers – they are the best in the industry without a doubt!

Thank you both again! I don't plan on moving any time soon but when I do, you will be the first ones I call!

Sincerely,

Shelly Harris
